Industrial Cleaning

# Who we are?

At DPOLUX, we project ourselves as the leading company in comprehensive solutions for waste management, industrial cleaning, and environmental services.

Our vision is to transform the conventional way companies receive industrial cleaning services, using state-of-the-art equipment and software to optimize processes, reduce environmental impacts, and maximize operational efficiency.

# we provide solutions to your problems

## **Grease buildup**

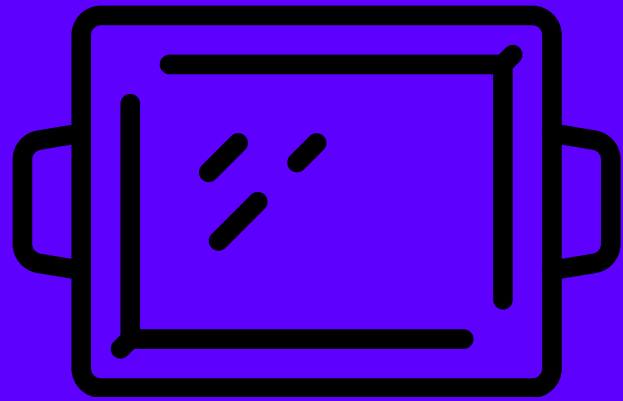

Accumulation of grease and waste in pipelines causes blockages and foul odors.

## **Business closures**

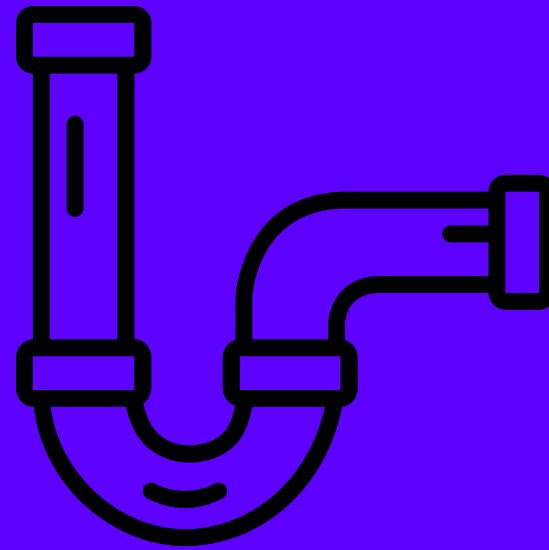

Compliance with health and hygiene regulations

# our services

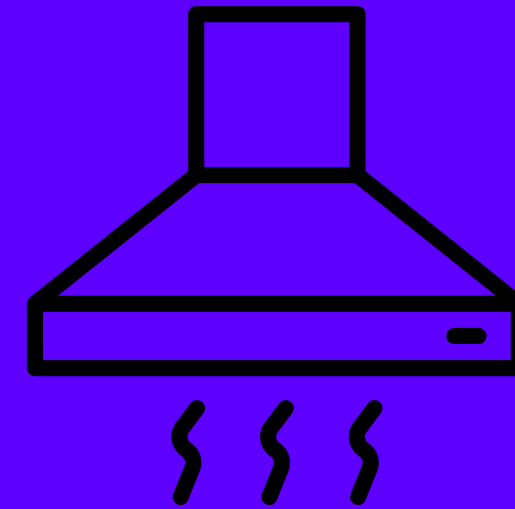

## Grease Trap Cleaning

Removes accumulated waste, preventing blockages, bad odors, and contamination. We guarantee efficient maintenance for regulatory compliance

## Pipeline Network

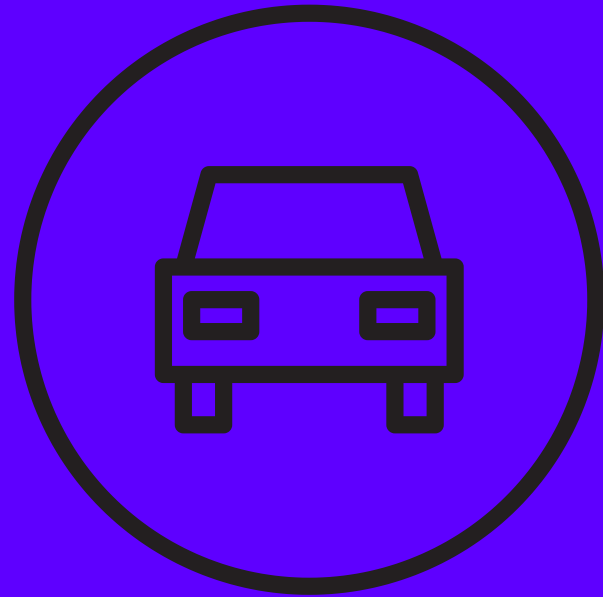

Cleaning: Removes obstructions, waste, and grease buildup, ensuring optimal flow and preventing odors. Avoid costly problems with professional maintenance!

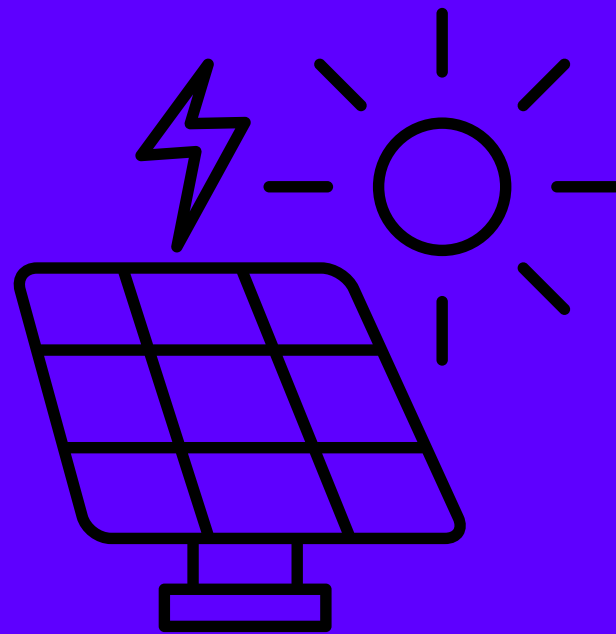

## Kitchen Hood Cleaning

Removes grease, smoke, and residue buildup, improving your kitchen's safety and efficiency. Prevents fires and ensures compliance with sanitary regulations
